

BN Studio Getting Started Guide

Welcome to BN Studio.

This guide will help you get your account configured and ready for use.

Step 1: Log In

Navigate to:

<https://studio.thebowmannetwork.com>

Enter the login credentials provided during account setup.

Step 2: Review Your Dashboard

After logging in, review:

- Platform Status • Storage Usage • Active Alerts • Subscription Information • Tenant Overview

The dashboard serves as your central control center.

Step 3: Configure Tenant Information

Review and update:

- Organization Name • Contact Information • Branding Settings • User Accounts • Notification Preferences

Step 4: Upload Media Assets

Navigate to Media Library.

You may:

- Upload videos • Upload graphics • Organize content • Review media health • Manage storage usage

Step 5: Review Subscription Status

Navigate to Billing.

Verify:

- Active Plan • Renewal Date • Billing Information • Payment Method
-

Step 6: Invite Team Members

Authorized administrators may:

- Create user accounts • Assign permissions • Manage user access
-

Step 7: Explore Platform Features

Available features may include:

- Livestream Management • Creator Tools • Media Library • Billing Dashboard • Tenant Management • Operations Center • Integrations

Features vary by subscription plan.

Step 8: Get Support

For assistance:

support@bytetronik.com

Website: <https://bytetronik.com>

BN Studio: <https://studio.thebowmannetwork.com>
